Two Fighters—Galaga
Shoot one of the green ships on top to turn it blue. When it dives alone, intentionally allow your fighter to be captured by its tractor beam.

Then using your next ship, wait until that one dives again. Shoot the alien ship while avoiding your fighter. Now you'll have two fighters with twice the firepower.

Keep Enemies from Shooting - Galaga
On Level 1, allow the alien ships to get into formation. Kill all of them except for the bee in the bottom-left corner. Upon destroying all of the alien ships, and only the bee remains, put your ship in the bottom-right corner. Allow him to fly around. After the first pass with him not firing, allow him to pass again. Shoot him during the second pass if he is still not firing. This will keep the enemy from firing for the rest of the game.

PILOTWINGS 64

Mt. Wario
Use the Gyro Copter, in class B, and fly to Mt. Rushmore. If you shoot Mario in the nose, then he will morph into Wario.

New York and San Francisco Warp
This trick warps you from New York to San Francisco. Start on Little States Island using the Rocketbelt or Gyrocopter. Go into the green building near the start of the level in New York. Go inside the building. You'll fly past a N64 logo and look for the other door to exit. Exit that door and you'll be in San Francisco. This trick can be reversed to warp to New York using the same procedure.

Miami and Seattle Warp
This trick warps you from Miami to Seattle. Start by flying inside the space shuttle hanger in Florida. Fly towards the ceiling. Then turn around and fly out of the hangar to be in Seattle. This trick can be reversed to warp to Miami using the same procedure.

Gyrocopter Driving
Gyrocopters can be driven on the ground as long as they got enough forward momentum in the air. After landing anywhere, keep the Gyrocopter moving forward. The Gyrocopter will begin to fly again once the speed starts to exceed 40.

POKÉMON SNAP

Unlock the Volcano Level
Go to the Tunnel level and near the exit gate. Throw some Pester Balls at the last Electrode. It should self-destruct and create a path to the Volcano level.

Finding the 6 Pokémon Signs
You must take pictures of these 6 landmarks to unlock the Rainbow Cloud level below. First, go to the Beach level and take a picture of the Kingler rock formation that is on the left after Pikachu's surfboard. Second, go to the Tunnel level and take a picture of the Pinsir shadow. The shadow will appear after you release the Zapdos from the beginning of the level and will be on the right after the second Electabuzz. Third, go to the Volcano level. Throw a Pester Ball into a small volcano to the left of the first Rapidash that appears. Smoke will come out and form a Koffing cloud. Take a picture of that. Fourth, go to the River level. Play the Pokeflute in front of the sleeping Vilepume. A Cubone rock formation will appear above Vileplume so take a picture of that. Fifth, go to the Cave level. Take a picture of Mewtwo's energy form that will appear after you see the Weepinbell. The form will be on the left. Sixth, go to the Valley level. Take a picture of the Dugtrio rocks that are in front of you when you start the level.

Unlock the Rainbow Cloud Level
Take pictures of all six Pokémon signs and complete the Valley level. Professor Oak will open the Rainbow Cloud level. Mew can be seen here.

View Special Ending Sequence
Unlock all the levels and take photos of all the Pokémon. After you save the game, an ending sequence will start and feature all of your photographs.

POKéMON STADIUM

Amnesia Psyduck
Register all 151 Pokémon in the Hall of Fame.

Alternate Title Screen
Beat Gym Leader Castle and Stadium modes to have the title screen change.

Hyper Difficulty
Pick a single player game against three CPU opponents. Win the "Who's the Best?" challenge five times in a row on the Hard difficulty. This will unlock the Hyper difficulty setting for the CPU opponents.

Open Up Round 2 (R-2)
Beat Mewtwo after you beat Stadium Mode and Gym Leader Castle Mode. You will then see a final credits sequence and this will unlock Round 2 (R-2) mode and all new battles.

Talking Pikachu
Upload one from Pokémon Yellow. Other game versions will be silent.

Greater Damage Attack
Hold Down + L and press A repeatedly when your Pokémon is doing an attack. When the Pokémon does attack hold Down + L + A until the damage is taken away from the opponent. This trick doesn't work every time, but it does work a good majority of the time.

Less Damage Taken
This trick will work if the Pokémon are near equal skill level and when your Pokémon is receiving a fatal attack. When the opponent begins their attack, hold Down + L + B until the energy is taken away. This trick doesn't work every time, but it does work a good majority of the time.

Bonus Stickers
Complete Round 1 (R-1) mode, beat Mewtwo, complete Round 2 (R-2) mode, and beat Mewtwo again. Enter the gallery screen. Hold L+R and move your cursor to highlight the Print option. Continue holding L+R until Print changes to Bonus. Enter the Bonus to get more stickers.

Mewtwo Battles
Beat all cups in Stadium mode and beat all the opponents in Gym Leader Castle mode. Mewtwo will be the last opponent in Round 1 (R-1) and Round 2 (R-2).

Surfing Pikachu
Complete the game to unlock Surf for Pikachu. Unlock Round 2 (R-2). Enter R-2 Prime Cup's Master Ball division. Make up a team that contains a Pikachu that doesn't know Surf yet. Use a Pikachu from your Game Boy game because you can't unlock Surf with a rental Pokémon. Make sure not to register your team. Finish the Master Ball division as long as you have Pikachu on your team of three through the whole way. If you lose, then you can't continue. If this trick is done correctly, then you will see an awards screens with Pikachu standing on a surfboard. Pikachu can now use Surf in battle and during gameplay.

Play as Mew
Mew will be playable as a rental Pokémon in Round 2 of the game. It can be used in Prime Cup Tournament, Free Battle, Gym Leader Castle, and Mewtwo Battle modes.

Alternate Colors
This only works for Pokémon that you uploaded from the Game Boy games. Give the Pokémon different nicknames, switch syllables, all lower-case character names, and separating the syllables with hyphens will possibly change the colors of your Pokémon. You can look at the nicknames of opposing Pokémon to find some names that change Pokémon colors.

Bonus Pokémon
This trick will give you one of these characters at random: Bulbasaur, Charmander, Squirtle, Hitmonlee, Hitmonchan, Eevee, Omanyte, Kabuto. You will get one of these Pokémon every time you beat the Gym Leader Castle mode, including the Final Four and your rival. Once you beat Gym Leader Castle, you only need to beat Final Four and your rival to be awarded another Pokémon. Remember that these bonus Pokémon are given randomly, so you will probably need to keep trying this trick to get all the Pokémon.

Harvest Moon GB (Re-release)

Infinite Eggs
Find a watering can and water an egg close to the shipping box. It will change to a fence. Grab the fence and it will change into an egg. The fence will remain - and unlimited eggs are yours for the taking.

Automatic Watering
Water your crops and go to sleep. Right when the screen turns white, power off your game boy. Turn your Game Boy on again and look at your crops - they should all be watered.

Cool Cow
Get your first cow and use a heart symbol to start its name. It will give good milk and grow up faster.

Free $1,000
Start the game and go into the cupboard. You'll find $1,000.

Infinite Egg
Let one of your chickens lay an egg above the shipping box. Water the egg to change it into a block. Grab the block and you'll get infinite eggs, and a ton of money.

More Eggs
Buy a chicken. During the same year, grab the egg your chicken has laid in the barn. Hurl it against the wall. The egg will actually be inside the wall. Cut the egg from the wall with your sickle, then put it in a shipping box. Extract another egg the same way. You can grab 100 eggs before the wall is exhausted.

Sell Egg at Chicken Prices
Grab an egg (laid by one of your chickens) and put it in an incubator. Walk to the animal shop and choose "Sell a Chicken." Highlight your egg. You'll get chicken prices for your egg.

The Name Game
Capitalize the first letter of your name and you'll be able to grow eggplants and carrots. Leave the first letter of your name lowercase to grow peanuts and broccoli. To grow everything, start your name with a symbol, such as a heart.

Defeat him and there will be a different card than the last time. Note: This may be repeated as many times as needed.

Fire Club Trade
To get the Lv.9 promo Slowpoke easier, put all of your energies except one in temporary decks. Then, talk to the boy. He will reveal the location for only one energy.

Finding Mitch's Students
Defeat Mitch's three students. Jessica is in the Lightning Club, in the room on the left. Chris is in the Rock Club in the same room. The last student, Michael, is in the Grass Club just as you walk in. After you defeat them, they will all return to the Fighting Club.

Grand Masters victory
When you defeat the Grand Masters, go to the deck machine on the top of the screen before you get the cards to build a strong deck. If you fail to do this, you'll have to battle once again.

More cards from the Grand Masters
Defeat the Grand Masters repeatedly to win additional cards.

Defeating Ronald
After you defeat the four Grand Masters, you'll face Ronald. He got to the cards one step ahead of you. Ronald's deck already has the four legendary cards, and thus is difficult to beat. Use Hitmonlee's (Lv. 30) Stretch Kick and knock out Ronald's benched Pokémon one by one. This is best done when he has his Kangaskhan on the arena, because he will need three energy cards to retreat. Since this kick does not apply resistance on the benched Pokémon, they can still be hurt even if they have resistance to Hitmonlee (Fighting).

Ronald's revenge
After you get all 228 cards, go to the Challenge Hall and the last person you battle will be Ronald.
